

Instructions:

Please obtain copies of all relevant documentation used at the meeting, such as electronic timing print, zero test print, field events officials' recording sheets, lap scoring sheet, walk judging sheet, and official results.

The record claim form is to be used for both State and Australian record applications, and needs to be fully completed, and signed by officials.

Note: World record applications are made on one of four different record claim forms available from AMA and WMA websites, and as proof of date of birth, a birth certificate copy is required by WMA.

Send this claim form and all documentation to your State Statistician. If the record is also an Australian record, the State Statistician will send it on to the Australian Records Officer (Clyde Riddoch).
